

## FREQUENTLY ASKED QUESTIONS (FAQ)

QM Steel CC - Steel Structures

---

### **What are your services you provide?**

We manufacture and erect steel structures. We supply workshop drawings/ steel plans and can supply engineers' certificates if requested.

### **How much will a structure cost and take to complete?**

This depends on the finishes and details of the Architect's/ Engineer's specifications.

### **How long will it take to erect a structure?**

This depends on a specified program & time table agreed to by QM Steel CC and the customer.

### **What do I need to supply on site for construction of the structure to begin?**

The customer must arrange for foundation inspection and provide ready mix concrete.

### **What happens if I need a structure to be erected outside of the 300km radius of Alrode, Alberton?**

We erect countywide at additional costs. You will be quoted on transport and related costs, should you fall outside the 300km radius.

### **What portal frames are available?**

The standard size portal frames are available in widths of – 9m, 12m, 15m, 18m, 20m, 25m and 30m at bay spacing's of 5m and 6m , and heights ranging from 3m to 6m standard. Any structure can be produced according to Engineer's designs.

### **Is the roof insulated?**

We can install Alububble Thermal at an additional cost.

### **Do you supply D.I.Y structures?**

We do supply structures for self erection, especially if required for export purposes.

### **Will you do the building work after the erection of the steel structure?**

We do not undertake any building work, plumbing, electrical, finishes etc. These types of work will have to be done by other contractors.

### **I have questions with regards to a steel structure that isn't answered here. Who can I ask?**

Please let us know via e-mail or telephone if you require further information about a steel structure. We would gladly assist you.
